Alden Technology Partners Hires Former MARHedge Executive - Mark Salameh

New York, March 22, 2007 - Alden Technology Partners, a leading provider of technology solutions for hedge funds, announced that Mark Salameh has been named President. Mr. Salameh comes to Alden Technology Partners from *MARHedge* where he was Senior Vice President and was responsible for strategy, business development and sales.

“Mark’s extensive industry experience, knowledge and relationships will allow Alden Technology Partners to grow and better support the needs of hedge funds”, says John Taaffe, Alden Technology Partners CTO and a SAC Capital veteran. “I am delighted to take on the responsibility as President of Alden Technology Partners”, says Salameh. “I have worked with hedge funds and I understand their technology and infrastructure needs. One of the most understaffed areas in many hedge funds is IT. Alden Technology Partners solution incorporates a level of personalized service that stands out among the rest. Our clients know our engineers on a first name basis and trust them with keeping their operations up and running. This allows Alden Technology Partners clients to focus on what they do best – preserve capital”. Salameh also indicated that Alden Technology Partners will continue to add additional IT staff and move into larger NYC offices in order to maintain the superior level of service they provide.

About Alden Technology Partners

Alden Technology Partners provides technology solutions solely to hedge funds. The Alden Technology Partners team consists of skilled professionals with a track record of success in the fast-paced hedge fund community. We combine the hedge fund experience an IT generalist lacks with the focus and responsiveness that a large financial services IT shop is unwilling to provide. Alden Technology Partners collaborates with clients to create cost effective solutions based on their unique needs. Alden Technology Partners Solutions include: Outsourced IT, Start-up and Relocation Services, Vendor Management, Network Security and Disaster Recovery.
